

HOST FAMILY FORM

When you are selected to be an Outbound Student, North Star receives one Inbound student in reciprocal. Your Sponsoring Club is financially responsible for the student, but also responsible for finding three host families. They can always use help in finding host families.

We hope that your family will seriously consider hosting. But, we do understand if there are reasons you cannot do that. Many families find it a richer experience to host while their student is outbound, knowing a bit more firsthand what it is to be an exchange student.... learning a new language, making friends, adapting to new family members, etc.

In an effort to pay back to the program we would ask you to give us the names of **at least three families** who you know would consider hosting. Please introduce the idea to them and let us know how we may contact them for follow up.

The family names you give do not necessarily need to be in your community, they could be elsewhere in North Star territory (southern MN or western WI). But, if you can give us at least three in your community, that would be very much appreciated.

Name	Phone Number	Email	How you know them and what their interest level is
